

Riots Arizona- Notes

10/19/2023

The State of Arizona and its fantastic story line about how no body living. Has enough sense to get anything done the right way is a very big problem. Hate crime. The most offensive. People. Affecting our community. I listen. I am concerned. I have to write about it. Now when everyone says Oh Jonathan what happened to Jonathan I wish he were here right now. For someone to acknowledge the problem. Were employees of the State of Arizona. Poisoning, Suffocating Me. Imprisoning and Torturing Honest Citizens for years. I Don't believe in the theories that most people lie about. The Artificial Government is a lie. Trust no one. It takes one Murder. To corrupt any Government agency through cash and Rumors. I assure you. You will Lose your life. For the sole purpose of acquiring your personal information. The media is offensive. The propaganda being used is a Murder in plain sight. They stalk and Kill innocent people as if they were on a safari for the meat industry. I would never accept their apologies. Their Corruption to offer some one burdened with their misdeeds and loyalty to conceal their long time Killers, Thieves, and fraud of society. For Jonathan Olvera to disappear be assaulted, kidnapped or poisoned. I am so disappointed in my state I am ashamed of my person. To walk outside. I feel so violated by the community. For the people to gather in church and school and specifically talk about my person as if I were some kind of freak murder. Is a nightmare. I cannot see my self surviving the Justice System in the United States I will be murdered in my own home. Threatened with asphyxiation. While the people who run the courts cater to Murder Abuse Torture with food blankets protection and money it can happen to any one it happened to me and there is nothing you can do to apologize to me for shattering my world as I know it and asking me if I could do something like go to school or find a job while specifically being singled out and humiliated by people who run the slaughter house. They must have needed some one to double check. Anyways I am 28 everything is a lie You don't get help when someone Dies. You get blamed and you get murdered by a random person in the neighborhood. I just want people to know that my life is over I am going to be murdered they should at least be nice to me. No one helps you everything that could assist you is taken away you are molested and photographed. Made to feel like you are special when you are slowly being Euthenized for absolutely no purpose at all than for all the rats in the world to get 10 steps ahead of you and laugh about it. Thanks for getting rid of the noose.

xJonathan Olvera
